JFK meets young Bill Clinton

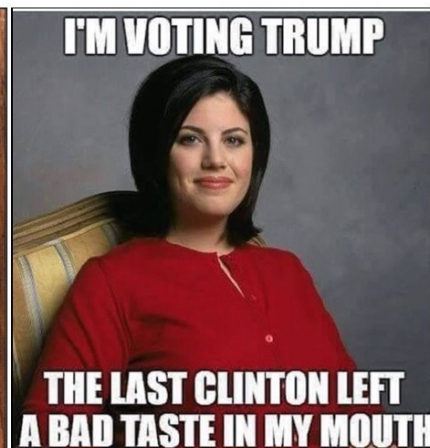

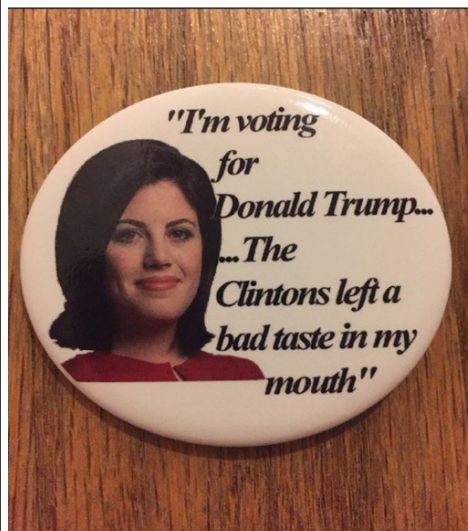

On January 20th, 1993
Bill Jefferson Clinton became the
42nd President of United States
At that time most Americans were not aware
Of the media blackout which kept
Bill Clinton's extended criminal background
Out from the public.
As State Attorney General and Governor of Arkansas
Bill Clinton in 12 years achieved absolute
Control over the political , legal and
Financial systems of Arkansas
As President he will attempt to do the same
With the nation by
Bringing members of his inner circle to
Washington with him
The hijacking of America was underway
And its impact on the future generations would be
Incalculable

Two weeks before, amid a firestorm of rumor and scandal, Clinton, who had the best organization and had been the front-runner, had seen his numbers collapse. Now he was mired down with the rest of the pack—Tom Harkin and

Studied at Menlo College and Syracuse University in the US

Founder of Kingdom Holding Company, a Riyadh-based publicly traded conglomerate

First contract was to advise a Korean company building an officers' club at a Riyadh military academy. Later chose to invest the profits in local real estate

Invested \$590m in struggling Citibank (now Citigroup) in 1991; stake is now worth billions

Has stakes in Disney, 21st Century Fox, News Corp, Apple, GM, Twitter, and a string of hotel chains and luxury hotels, including New York's Plaza Hotel and the George V in Paris

Considered Westernized and progressive on most issues. Champions women's rights - most of his staff are women

Owns a 371-room, 42,700 sq m (460,000 sq ft) palace in Riyadh, a Boeing 747-400 and an A380, and an 85m super yacht

Established Alwaleed Bin Talal Foundations across world to offer valuable humanitarian, educational and social assistance

Profile: Prince Alwaleed bin Talal

The company owns stakes in hotels The Four Seasons, Fairmont and Raffles, as well as News Corp, Citigroup, Twitter and Apple. The prince will be donating his personal wealth. "This is very much separate from my ownership in Kingdom Holding," he said at the announcement.

"Philanthropy is a personal responsibility, which I embarked upon more than three decades ago and is an intrinsic part of my Islamic faith," he added in a statement.

He said he hoped the gift would "help build bridges to foster cultural understanding, develop communities, empower women, enable youth, provide vital disaster relief and create a more tolerant and accepting world".

Prince Alwaleed's announcement comes during the holy month of Ramadan, when Muslims are encouraged to give charity and help the needy.

He said the donation would take place over several years and would be overseen by a board of trustees, which he will head.

When a child who is not accompanied by a parent or legal guardian is apprehended by immigration authorities, the child is transferred to the care and custody of the Office of Refugee Resettlement (ORR). Federal law requires that ORR feed, shelter, and provide medical care for unaccompanied children until it is able to release them to safe settings with sponsors (usually family members), while they await immigration proceedings. These sponsors live in many states.

Sponsors are adults who are suitable to provide for the child's physical and mental well-being and have not engaged in any activity that would indicate a potential risk to the child. All sponsors must pass a background check. The sponsor must agree to ensure the child's presence at all future immigration proceedings. They also must agree to ensure the minor reports to ICE for removal from the United States if an immigration judge issues a removal order or voluntary departure order.

HHS is engaging with state officials to address concerns they may have about the care or impact of unaccompanied children in their states, while making sure the children are treated humanely and consistent with the law as they go through immigration court proceedings that will determine whether they will be removed and repatriated, or qualify for some form of relief.

Janissaries and The Ottoman Empire - The Forgotten Reality of Europe

The Janissaries.-Two notable institutions created by the Ottoman sultans were the military organization of the Janissaries and the civil service. During the conquest of the Balkans, the Turks took as blood tax tribute from the Christian population, a percentage of the male children. These became the "slaves" of the sultan. Completely severed from their Christian families, these children were brought up as Moslems and imbued with religious devotion to Islam and loyalty to the sultan. The more able were enrolled in officials in the state bureaucracy, the Ruling Institution. The remainder were given a military education and became members of the famous Janissary corps, recognized in the fifteenth and sixteenth centuries as the best trained and most effective soldiers of Europe. They began as an elite corps of slaves made up of kidnapped young Christian boys who were forced to convert to Islam, and became famed for internal cohesion cemented by strict discipline and order. Slavery in the Ottoman Empire was a legal and significant part of the Ottoman Empire's economy and society. The main sources of slaves were war captives and organized enslavement expeditions in North and East Africa, Eastern Europe, the Balkans and the Caucasus.

HHS has strong policies in place to ensure the privacy and safety of unaccompanied children by maintaining the confidentiality of their personal information. These children may have histories of abuse or may be seeking safety from threats of violence. They may have been trafficked or smuggled. HHS cannot release information about individual children that could compromise the child's location or identity.

The data in the table below shows **state-by-state** data of unaccompanied children released to sponsors as of June 30, 2019. ACF will update this data each month. ACF will update this data each month. [View unaccompanied children released to sponsors by county.](#)

Please note: ORR makes considerable effort to provide precise and timely data to the public, but adjustments occasionally occur following review and reconciliation. The FY2014 release data posted in the chart below were updated on March 13, 2015. The FY2015 release data were updated May 9, 2016. Questions may be addressed to ORR directly, at (202) 401-9246.

If Hillary Clinton is a crook, then she's the smartest God-damned criminal in the history of the world, because Republicans have spent 25 years and 500 million dollars on witch hunts that have turned up absolutely nothing.

Or, maybe she isn't the one who is crooked after all?

OBAMACARE IMPLIMENTS A NEW UNITED NATIONS CONTROLLED MEDICAL CODE FOR LEGALIZED BEHEADINGS (official governemnt links included)

In conjunction with Obama Care, every American citizen is under international codes to link us to this new "international" system. This the International Classification of Diseases (IDC) is part of the part of the "medical coding" under the World Health Organization (WHO). The WHO is a specialized agency of the United Nations. This gives our health information to the United Nations.

As of October 1, 2014 the ICD 9 coding used has an additional 86,000 codes. ICD-10-PCS (Procedure Code System) "mandated" medical coding will add 68,105 codes. There will be 155,000 medical codes for medical professionals to learn and peruse for each patient. According to the Center for Medicare and Medicate ([CMS.gov](http://www.cms.gov)) is being undertaken under revisions mandated by the Health Insurance Portability Accountability Act (HIPAA). Confirm this by the official government link here:<http://www.cms.gov/Medicare/Coding/ICD10/index.html> The most gruesome medical codes is E978. This is a billing code for execution by decapitation and poisoning. Apparently it is a billable claim number, although I have to wonder who would ever file such a claim for reimbursement under medicaid, medicare, or any other program.

Guillotines, by the millions are being stored in Georgia, Nebraska and several other parts of the United States to behead Americans under these 7 Noahide New World Order laws. Bill #1274 of the Georgia House of Representatives - 1995/1996 Sessions HB 1274 - guillotine provisions Code Sections - 17-10-38/ 17-10-44 has set the use of guillotines for beheadings into law in America. More than five years after a major failure was identified in a system used to communicate with CIA agents on the ground around the world, the agency has yet to fully fix the problem, according to sources directly familiar with the matter.

Between around 2009 and 2013, the CIA's online method of communicating with its human sources on the ground all over the world was tragically compromised — leading to the exfiltration, imprisonment or death of dozens of people spying for the agency, according to a [November investigation by Yahoo News](#).

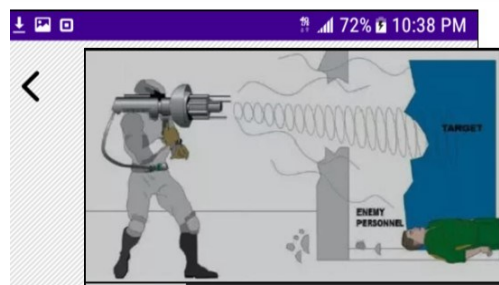

The failure started when Iranian officials used a double agent to trace back a series of websites the CIA was using to communicate with its sources. Iran then located, detained and in some instances executed CIA sources it identified using

Otto F. Warmbier, a New York college student imprisoned in North Korea and returned to the United States in a vegetative state, suffered extensive brain damage following interrupted blood flow and a lack of oxygen, according to the coroner who examined his body.

But an external examination and “virtual autopsy” conducted by the coroner’s office in Hamilton County, Ohio, could not determine how his circulation had been cut off.

“All we can do is theorize, and we hate to theorize without science backing us up,” Dr. Lakshmi Sammarco, the county coroner, said in an interview Thursday.

Mr. Warmbier, 22, an undergraduate at the University of Virginia, was convicted in March 2016 of trying to steal a propaganda poster while on a trip to North Korea and sentenced to 15 years of hard labor. He was flown back to the United States in June in a vegetative state.

Two days following the attacks on 9/11, Donald Trump was at ground zero with hundreds of workers that he paid for out of his own pocket to help find and identify victims. This was many years before he would even think about running for president. He was working in the best interests of his country then and he works in the best interests of his country now. You won't hear this on the media.

We must reject the idea that every time a law's broken, society is guilty rather than the lawbreaker. It is time to restore the American precept that each individual is accountable for his actions."
